

## Week 2 : Otherworldly outfits

Welcome back! This week we will design & make PPE (personal protective equipment) that is playful and fun, whilst still keeping us safe. We will also create and perform in otherworldly places.

# Door Step Despacito

### 1 Moodboard

Make a collage as inspiration for your PPE.

**You will need:** A piece of paper, newspapers, magazines, scissors & glue.

- **Cut out** images, colours, textures and shapes that inspire ideas for your costume.
- **Arrange** them on your paper and stick them down when you are happy with the choice and layout.

### 2 Playful PPE

Create your stylish or silly piece of safety wear inspired by your mood-board.

A hat made out of a balloon to keep a safe distance of two metres.

A 3D outfit made from tubing.

Silly stretched shoes to keep a safe distance in a fun way!

**You will need:** scissors, glue, pens and recycled materials.

#### Suggested steps:

- **Look** at your mood-board and the images above to start you off.
- **Sketch** out some ideas. You could redesign a face-mask, glasses, gloves or create an outfit to keep a safe distance in a fun way.
- **Go for it!** Recycle materials from around you and be inventive. Cut, assemble, and decorate, you could take items apart and remake them. The wackier the better!

## 3 Weird worlds

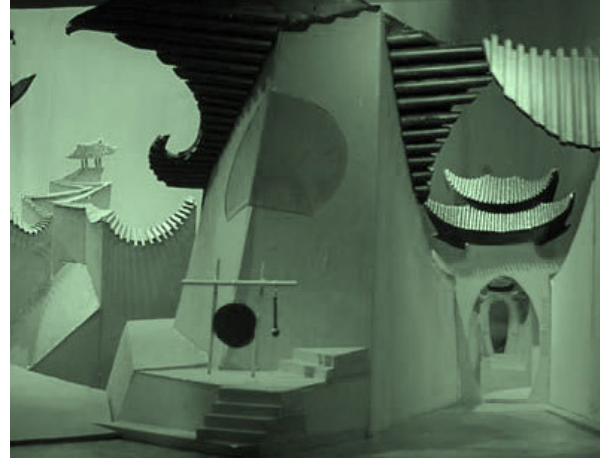

Where would you go if you could go anywhere now? Where else could these outfits/costumes be worn? Create this as a backdrop.

### You will need:

- Cardboard/Large sheet of paper/bed-sheet
- Pens/paints/tape

### Suggested steps:

- **Think** about what your otherworldly place looks like, how can you create this from materials at home?
- **Make** it big, bold and bonkers!

Set design by Artist David Hockney

## 4 Perform!

Wearing your playful ppe, create a performance in your weird world.

**You will need:** Your playful ppe outfit, your weird world backdrop, a camera/phone to film on, yourself!

### Suggested steps:

- **Place** yourself against your backdrop.
- **Use** your costume to inspire different ways of moving your body, how would you move around your weird world? crawl ? slide ? spin ?
- **Film it !**

Oskar Schlemmer's, triadict ballet, 1922.
